JUDD WIRE INC.

Delivers, Designs and Delivers High Value Solutions for our Customers

REACH (Registration Evaluation Authorization of CHemicals)

Judd Wire Company Statement

The majority of chemicals that Judd Wire uses as cable insulations and jackets, are exempt from the registration and evaluation portion of REACH.

*One class of flame-retardant additive, **Deca-BDE (Deca-Bromodiphenyl ether oxide)** has been the subject of many recent inquiries. Per the REACH legislation, this chemical is restricted from being used as of June 1, 2008. Please note that Judd Wire, Inc. does not use this material in any of our aerospace insulations or jackets.*
